

Experts in Structural Strengthening

Reading Bridge, Reading

Client	Reading Borough Council
Value	£2 million
Duration	October 2014 to July 2015

Supporting a three-lane highway and two footways over the River Thames, VolkerLaser delivered major strengthening works to this historic sprandel arch structure; an essential part of the strategic transport network for the Berkshire area.

LondonWaste EcoPark, Edmonton

Client	LondonWaste
Value	£630,000
Duration	January 2015 to October 2015

Working alongside heavy plant and vehicles, VolkerLaser delivered specialist Cathodic Protection works to the entrance and exit ramps of Britain's largest recycling facility; handling waste from seven London boroughs.

Woodhouse Tunnel A58(M), Leeds

Client	Carillion / Leeds City Council
Value	£11 million
Duration	November 2013 to 2016

Our largest contract to date, this exercise in logistical expertise saw VolkerLaser deliver a wide breadth of specialist strengthening works to a vital piece of infrastructure, working purely at night.

University of East Anglia, Norfolk

Client	University of East Anglia
Value	£2.1 million
Duration	July 2012 to Sept 2015

Developing a close professional relationship with the University of East Anglia has secured VolkerLaser repeat business for three consecutive years, delivering works to Grade II listed buildings.
